# 1945 PRICE-LIST

1882  
1945

Magnolia glauca  
(Sweet Bay)

63d  
Year

JUN 5 - 1945  
U. S. Department of Agriculture

ANOTHER year has come and gone, and fortunately some of our more pessimistic predictions in the 1944 Price-List did not materialize. We were able to get most of the essential packing supplies and we didn't have to work so many makeshifts in our operations after all. We did do a first-class "Houdini," though, in running a 2000-acre nursery with somewhat less than half the usual number of hands.

On the other side of the picture—we had to turn down a lot of perfectly good orders from old and new customers alike, because the days were too short and the help too scarce. We know that some of you were short-shipped and apparently slighted last winter as a result. And we know too that most of you took these mishaps in remarkably good spirit.

Our greatest pleasure would be to say, "Well, now that Hitler is practically put away and the end of the Jap War at least a lot nearer, everything is all right and your orders can be handled as they come in without batting an eyelash." That would be grand! The only trouble is that our war economy must be converted to peace economy.

Now a few requests:

- {1} Please order as early as possible after you receive this Price-List.
- {2} Take as much stock as feasible, bare-root instead of balled and burlapped.
- {3} Do not expect split-second deliveries, and try to avoid specifying either shipping or arrival dates to the very day.
- {4} Try to understand our position and the fact that we are doing all we can for you under existing conditions.

Let's have your orders for roses and fruit trees first, with cash in full. They are the scarcest items again this season. Then tell us your ornamental wants; spruce up for the boys coming home. If there was ever a time to take inventory and get set for better days, this is certainly it.

 In small pots, 50c each, \$1.25 for 3

# DAYLILIES

ITEMS DESCRIBED IN CATALOGUE ON PAGE 38 AND 39

## Single Divisions (Bibs)

KANAPAHA. (Watkins.) The latest, and in his own words, the best of the Daylilies originated by John V. Watkins, heads our list for 1945. The blooms of clear cardinal-red are distinctive in that all of the segments are self-colored. There is no eye zone of deeper tone and there is no midrib of lighter value. Kanapaha blooms a month before closely comparable varieties that grow in the Daylily Display Garden at the University of Florida. \$2.00 each.

Preceding Kanapaha have been the very striking Mrs. John J. Tigert, the outstandingly beautiful and graceful Swan, and Welaka with its rosy orange tones, all originations of John V. Watkins.

Swan Welaka  
 Above 2 varieties, \$1.75 each

Vulcan Patricia  
 Mrs. John J. Tigert  
 Above 3 varieties, \$1.50 each

Glen Saint Mary Nurseries Co.  
Winter Haven, Fla.

# TERMS OF BUSINESS

## LOCATION

General Office and Nurseries at Glen Saint Mary, Baker County, Florida, on Seaboard Air Line Railway, and State Road No. 1, 30 miles west of Jacksonville. Office and Citrus Nurseries at Winter Haven, Polk County, Florida. Visitors are always welcome.

## APPLYING PRICES

Orders for five (5), fifty (50), and five hundred (500) plants of one class command the 10, 100, and 1000 rates respectively. Prices herein are for the Retail trade only and cancel all previous lists and catalogues. They are based on current conditions and therefore subject to change without notice.

## CASH

or satisfactory reference must accompany all orders for immediate shipment unless the party ordering has an account. On orders booked in advance of the shipping season, 25 per cent down, with the balance due when the shipping season opens, will be required. Reserve orders are accepted only upon conditions that they shall be void should injury befall the stock before shipment, from any cause not under our control. Stock held in our fields on reserve long enough to grow to a larger grade will be billed accordingly at shipping time.

## BE SURE

to state clearly when ordering how you wish shipment made Parcel Post, Express, Commercial Truckline or Freight. Lacking this information, we will use our best judgment as to method of forwarding. On orders for shipment by Parcel Post, add 25 per cent to the list price to cover cost of packing and postage. Heavy shipments that would be expensive by Express can usually travel via Commercial Truckline nearly as quickly as by Express and for less cost. Please use our order blanks; additional ones will be mailed on request.

## SHIPPING AND PLANTING SEASON

From the middle of November to April for bare-root plants covers the average season but weather conditions each year govern beginning and ending dates. Balled and Burlapped plants and trees may be safely moved almost every month of the year.

## SUBSTITUTION

It is our desire to furnish stock exactly as ordered. On orders for commercial planting, substitution of varieties will not be made without permission from customer. On small orders, items which we are unable to supply will be omitted unless we are instructed to substitute.

## WE GUARANTEE

all stock sent out to be well rooted, well grown, true to name, properly packed, and shipped according to instructions. Our liability under the foregoing guarantee is limited in amount to the original price received. There shall be no nursery stock sold under a guarantee to live, except with the understanding that it will be replaced within 6 months from date of sale if it dies, at not less than 50 per cent of the purchase price, which shall be considered as insurance.

## CLAIMS

If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within 10 days after the receipt of goods. Our responsibility, except as stated above, ceases upon delivery of nursery stock in good condition to public carrier.
